

## V-Wheels

DKS V-wheels are used in slide gate applications that utilize an inverted “V” type track. These V-wheels are ideal for replacement purposes, or in applications where custom wheel mounting is utilized.

### UHMW Wheel

- 4" UHMW V-wheel
- Sleeve bearing
- Maximum gate weight 500 Lb.

### UHMW Wheel w/Bearing

- 4" UHMW V-wheel
- Sealed roller bearings
- Maximum gate weight 750 Lb.

### Steel Wheel w/Bearing

- 4" Machined Steel V-wheel
- Sealed roller bearings
- Maximum gate weight 1500 Lb.

### Steel Wheel w/Bearing

- 6" Machined Steel V-wheel
- Sealed roller bearings
- Maximum gate weight 2500 Lb.

V-Wheels	
P/N	Description
1201-004	<b>UHMW Wheel</b> 4-inch UHMW wheel with sleeve bearing.
1201-006	<b>UHMW Wheel with Bearing</b> 4-inch UHMW wheel with bearings.
1201-016	<b>Machined Steel Wheel</b> 4-inch steel wheel with bearings.
1201-000	<b>6" Machined Steel Wheel</b> 6-inch steel wheel with bearings.
