

## V-Wheel Assemblies

DKS V-wheels are used in slide gate applications that utilize an inverted “V” type track. V-wheels are guarded and include mounting brackets designed for 2-inch wide gate rails.

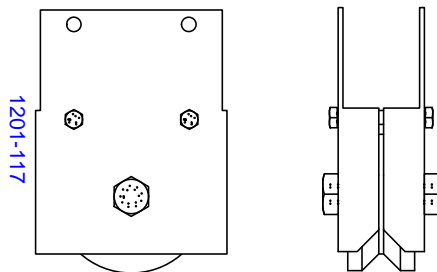

### UHMW Wheel

- 4" UHMW V-wheel
- Sleeve bearing
- Maximum gate weight 500 Lb.

### UHMW Wheel w/Bearings

- 4" UHMW V-wheel
- Sealed roller bearings
- Maximum gate weight 750 Lb.

### Steel Wheel w/Bearings

- 4" machined steel V-wheel
- Sealed roller bearings
- Maximum gate weight 1500 Lb.

V-Wheel Assemblies	
P/N	Description
1201-102	<b>UHMW Wheel Assembly</b> 4-inch wheel with mounting bracket for 2 x 2 bottom rail.
1201-105	<b>UHMW Wheel Assembly with Bearings</b> 4-inch wheel with bearings and mounting bracket for 2 x 2 bottom rail.
1201-117	<b>Machined Steel Wheel Assembly</b> 4-inch wheel with bearings and mounting bracket for 2 x 2 bottom rail.
