

MODEL 1803

The model 1803 is an ideal telephone entry system that is suited for applications that do not require a directory, or in applications where a separate directory exist. Visitors are easily identified by voice communication and can be granted or denied access directly from a touch-tone telephone.

Standard Features

- Full-Duplex Communication
- 1000 Phone Number Memory
- Programmable directory codes (1-4 digits)
- 10 and 11 digit dialing capability
- Two special inputs can be programmed for relay activation or dial-out function
- 5-Digit entry codes (6) for special needs
- Built-in clock provides automatic relay activation
- Time zone restrictions on selected entry codes
- Time clock has its own backup power source
- Flash entry codes
- 2 relays for door/gate control
- Single-line programming display uses super-twist LCD with 1/2-inch characters
- Built-in postal lock provision
- EEPROM Memory
- Power transformer included
- 2-year warranty

Options

- Available in surface or flush mount styles.
- CCTV camera (may require purchase of additional CCTV equipment).
- Mounting posts.
